FREE Lunch,
Music,
Transportation

EDWARD L. LATIMER,

Surveyor
for Prince George county, Md.
Phone, Hyatts, 10-R.

Hyattsville, Md., May 16, 1907.

Mr. Geo. N. Buck,
Washington, D. C.

Dear Sir: After going thoroughly over your subdivision "Hollywood" and surveying it, I am pleased to say that it is the finest tract of its size that I have ever laid out for building lots, having fine water, high elevations, good car service, and adjacent to the Baltimore and Washington Boulevard, thus making the ideal location for suburban homes.

Yours truly,
EDWARD L. LATIMER.

Location.

This beautiful subdivision of 3,000 lots is located on the hill north of Berwyn, adjoining Daniels Park, and lies between the Washington-Baltimore boulevard and the B. and O. railroad. The City and Suburban electric line runs through its center.

Hollywood

Has an elevation of 185 feet on the boulevard and 150 feet on the electric railroad; perfect drainage, beautiful shade trees, artificial lakes, parks, sites for churches, schools. Everything has been done to make this a most desirable place for a suburban home.

We Will Present

To the couple getting married in our new station on the day of the

Great Lot Sale at Hollywood
\$50.00 in Cash.

If the couple will buy a lot and build a house and commence housekeeping in Hollywood within three months we will present them

WITH AN ADDITIONAL \$100
OR A TOTAL OF \$150.

Terms of Sale.

\$1.00 down and \$1.00 per month. No interest, no taxes for three years. Five per cent off for cash.

Free Building Material.

5,000 feet of lumber will be given to each of the first five purchasers who will start to build a six-room house in the next sixty days.

Free Transportation.

Car tickets, to be used on our special cars, can be obtained free of charge by calling at the office, No. 310 Commercial National Bank building, 14th and G sts. n.w., or at cars leaving for Hollywood on morning of sale, Thursday, May 23, 1907.

Free Lunch

For every one present at this sale. Plenty for all.

The Location Cannot Be Surpassed.
Lying between the Washington and Baltimore boulevard and the Baltimore and Ohio railroad, with the Washington and Suburban electric line running through the center of this property.

Nature Has Done Much for "Hollywood."
Here you'll find both hill and dale, beautiful shade, grand old oaks, beech, chestnut, pines and thousands of holly.

Perfect Drainage.

A swift-running stream, fed by springs, passes through this property; the elevation on the boulevard is 185 feet, in the center on the electric line 150 feet, and on the eastern side at the B. and O. railroad, 100 feet, which makes the natural drainage perfect.

Pure Water.

Wells already dug and numerous springs insure an abundance of water of the purest quality.

Pure Air.

The elevation, together with the pines, give you as healthful air as you could wish to find.

As an Investment.

Washington, the capital of the greatest country on earth, the most beautiful city in the world, Baltimore, a great and rapidly growing commercial city. The steam, electric and boulevard connecting these two great and rapidly growing cities pass through "Hollywood" and are the great arteries or factors which are bringing these two cities together rapidly. Does it need a great financial mind—one who is able to look into the future and see things—to tell you that

Hollywood, on the Hill.

With its many advantages, cannot fail to grow and increase in value, and in the very near future become a beautiful little city within itself?

Cars Leave

15th and G streets n.w. First car leaves at 10 a.m., others follow every five minutes until crowd is accommodated.

Free Music.

A popular brass band has been engaged for the occasion and will be in attendance all day.

EDWARD DANIELS, Agent, 310 Commercial Bank Building, Fourteenth and G Streets N.W.

ARMY AND NAVY NEWS

Names of the Big Battleships.

Secretary Metcalf of the Navy Department today announced that one of the first-class battleships of the Dreadnaught type will be named for the state of Delaware. The name of the other vessel has not been wholly determined, but it will probably be New York, after the state of that name.

Comparing Wire Guns.

Maj. Gen. John P. Story, U. S. A., retired; Professor of Mathematics Philip R. Alger, U. S. N., and Capt. Alston Hamilton, coast artillery, composing the board appointed to consider the relative merits of the Crozier and Brown systems of wire gun construction, have been ordered to proceed to the army proving grounds at Sandy Hook, N. J., to inspect the present condition of the two guns now at that place and on completion of that duty will return to this city and resume their sessions.

Severe Examination of Cadets.

A board of army surgeons will meet at West Point tomorrow for the purpose of examining the five hundred cadets composing the several classes at the Military Academy. This is the second time all the cadets have been examined in this way. Previously the physical examination conducted annually by army surgeons was limited to members of the succeeding graduating class, it being considered that this was sufficient for all the purposes of military efficiency. The three surgeons composing the board will each examine every cadet. Whenever a defect is discovered by one of the surgeons the cadet will be examined thoroughly by the three doctors. The examination of the incoming class will be severe and will cause rejection on the slightest defect found by the examiners. In the case of the other cadets the rejections will be only for those defects which cannot be waived and which would affect the individual efficiency.

Accountability of Militia.

According to a recent decision the authority conferred upon the Secretary of War by section 4 of the act Congress approved June 22, 1903, amending section 1661 of the Revised Statutes, to relieve a state or territory from further accountability for United States property in the hands of its militia that has been lost or destroyed through no fault or neglect, or that has become unserviceable or unusable from use in service, extends to property so lost or destroyed or rendered unserviceable or unusable by reason of the act cited, and which has not been accounted for otherwise. The provision in said section that money value of stores lost or destroyed by reason of carelessness or neglect on the part of the militia shall be charged against the allotment of the state or territory under section 1661 of the Revised Statutes as amended applies to losses due to such causes that occurred after the passage of the act of June 22, 1903, as well as to such losses occurring thereafter, provided that the property so lost or destroyed has not been accounted for otherwise.

Resignation of Lieut. Updyke.

The resignation of Second Lieut. Robert P. Updyke, 17th Infantry, has been accepted by the President, to take effect July 11, and he has been granted leave of absence until that date. Lieut. Updyke is a graduate of the University of Minnesota and was appointed second lieutenant of the 17th Infantry in October, 1902. He is now on leave of absence at Rhyolite, Nev.

Wireless Submarines.

An American inventor has developed a submarine torpedo which, he claims, can be controlled absolutely as to direction, depth of submergence and speed from a

shore station or ship by wireless telegraphy. Gen. Murray, chief of artillery, has received a communication from the inventor offering to sell a large number of these devices to the government. The letter will be turned over to the board of fortifications and official tests will be made of any device submitted.

Reducing the Emergency Ration.

The War Department, upon the recommendation of the commissary general of the army, has authorized a reduction of from sixteen to twelve ounces in the weight of the army emergency ration, with corresponding change in the size of the package. It has been found by Gen. Sharpe that the twelve-ounce ration is sufficient to sustain one man for one day quite as well as the sixteen-ounce ration, considering the emergency character of the issue.

Marking Graves of Confederates.

The War Department will award within a few days the contract for 20,000 white marble headstones to mark the graves of Confederate soldiers and sailors who died in federal prisons and military hospitals in the north during the civil war and who were buried near the place of their confinement. This will be the first step toward action by the government to mark these graves. Col. William Elliott, an officer of the Confederate army and formerly senator from South Carolina, has been appointed commissioner to take charge of the work. The territory in which the graves are located extends as far south and west as Santa Fe, New Mexico, and as far north and east as Boston, Mass.

Interfering With Wireless Messages.

The fact that there is no law reposing authority in government officers to protect official wireless stations during the exchange of wireless messages is giving a great deal of trouble to the station at the Washington navy yard. A youth living in that vicinity, the son of a policeman, has set up a station of his own and takes delight in intercepting messages and exchanging them. The local police authorities were appealed to, but said they had no power to interfere with the young man's experiments.

Arrival of the Thomas.

The adjutant general is advised that the transport Thomas has arrived at San Francisco, from Manila, with the 8th Cavalry (51st enlisted men) and the following military passengers: Brig. Gen. Allen, chief Philippine constabulary; Col. Kingsbury, 8th Cavalry; Maj. Ayers, 8th Cavalry; McCormick, 7th Cavalry; Meares, Philippine Scouts; from Manila, with the 8th Cavalry: Rowan, 15th Infantry; Capt. Bigelow, Duff, Donaldson, Flynn, Farber, McClellan, 15th Infantry; Capt. Knudsen, 8th Cavalry; First Lieut. Barney, Baird, Carson, King, Rethorst, Watson, Wells, Elliott, 8th Cavalry; Daly, 13th; Shuman, 10th Infantry; Gregory, Pipes, Vedder, Surgeons; Second Lieut. Andrews, Cunningham, Edmunds, Kilbourne, Mueller, McCain, Smith, Sharburne, Van Natta, Wimberly, 8th Cavalry; Shannon, 7th Cavalry; Herron, 2d Infantry; Famel Deubery, Philippine Scouts; Contract Surgeon Le Hardy, Veterinarians Steele, 8th Cavalry; Woods, quartermaster's department; post commissary sergeant, one; master electrician, one; Hospital Corps, sixteen; Signal Corps, twelve; casuals, eighteen; discharged, fifteen; furloughed, one; sick, twenty-three; insane, one; general prisoners, sixteen; Wm. Reed, colored, civilian employe, quartermaster's department, died May 2, pulmonary tuberculosis, chronic.
